Key Vocabulary	Definition
Stitch	A loop of thread resulting from a single movement of the needle in sewing.
Seam	A line where two pieces of material are sewn together.
Felt	A kind of cloth made by rolling or pressing wool.
Aesthetics	our opinion of an object based on what we see, feel, hear, smell and even taste.

Plan

Design

Make

Evaluate

It is important to plan when starting a project. A plan helps us to decide what materials we need and how best to use them. For this topic you will plan the materials that you need to make and emoji cushion.

An important part of the project is the design stage. Sketch and design your emoji and consider what colours you will use where. What type of stitch will you use?

When making your cushion it is important that you follow your plan and design for the best outcome. Take your time and practise the skills that you have been learning.

Evaluating our project is a great way to think about what we have achieved. If you were to do the project again what would you change? How could you make your cushion even better?
